Our dispensers
consume 24% less plastic
than 50ml bottles.

Nirvana Hotels develops its sustainability-focused practices by prioritizing guest comfort and environmental sensitivity:

• In a refined commitment to environmental stewardship, our luxury sanctuary employs elegant, refillable amenity dispensers—curating a 24% reduction in plastic consumption compared to conventional 50 ml single-use vials. Liquid soaps, meticulously selected for their minimal ecological footprint, embody our dedication to waste minimization and enduring sustainability, ensuring every gesture of indulgence leaves the lightest possible imprint on the planet.

• Guests are graciously empowered to orchestrate the cadence of their linen refreshment, thereby masterfully curbing water and detergent indulgence. By confiding their bespoke preference to their personal assistant, each guest becomes an elegant custodian of nature's serenity, ensuring opulent comfort harmonizes seamlessly with planetary preservation.

• Guests are elegantly invited to signal their towel preferences with effortless grace: suspend those destined for reuse upon their dedicated hanger, and allow those seeking renewal to repose upon the bath or bedroom floor. This refined ritual deftly averts superfluous water and detergent use—transforming a simple gesture into a poised act of environmental reverence.

• In a symphony of mindful elegance, we have distilled printed materials within guest sanctuaries to an exquisite minimum—preserving forests with every page spared. A discreet QR code graces each suite, unveiling a digital tapestry of delights: the room service menu, essential room intelligence, safe usage, and exclusive access to Cosmos Theatre and Cosmos Moonlight events.

• Every Nespresso capsule savored in room embarks on a virtuous encore: meticulously segregated for recycling, its spent coffee grounds are alchemized into biogas—illuminating the world anew as renewable electricity, while pristine aluminum shells are reborn through expert reclamation. In exquisite partnership with Nespresso, this closed-loop ritual elevates indulgence into an act of planetary reverence, where every sip resonates with responsibility.

• In our cycle-friendly retreats, recycled Nespresso capsules are reborn as bicycle frames—transforming coffee indulgence into sustainable motion.

• To preserve fruit freshness and eliminate waste, long-stay guests receive elegant fruit request cards, ensuring only desired bounty arrives, optimizing resources with refined precision.

• Through the Nirvana Hotels application, an exquisite digital concierge guests glide effortlessly into a realm of bespoke intelligence: every nuance of our sanctuary, from curated dining rituals and spa sanctuaries to immersive events and insider revelations, unfurls at their fingertips. This paperless process banishes printed ephemera entirely, weaving seamless sophistication into environmental reverence where luxury whispers and the planet listens.

These exquisite practices reflect Nirvana Hotels' unwavering commitment to environmental stewardship and sustainability—elegantly shared with our guests as profound steps toward a more enlightened world.
